BREATHING FRESH AIR INTO YOUR STYLE.

The airy fresh design perfectly suits contemporary seats and aircraft interiors.

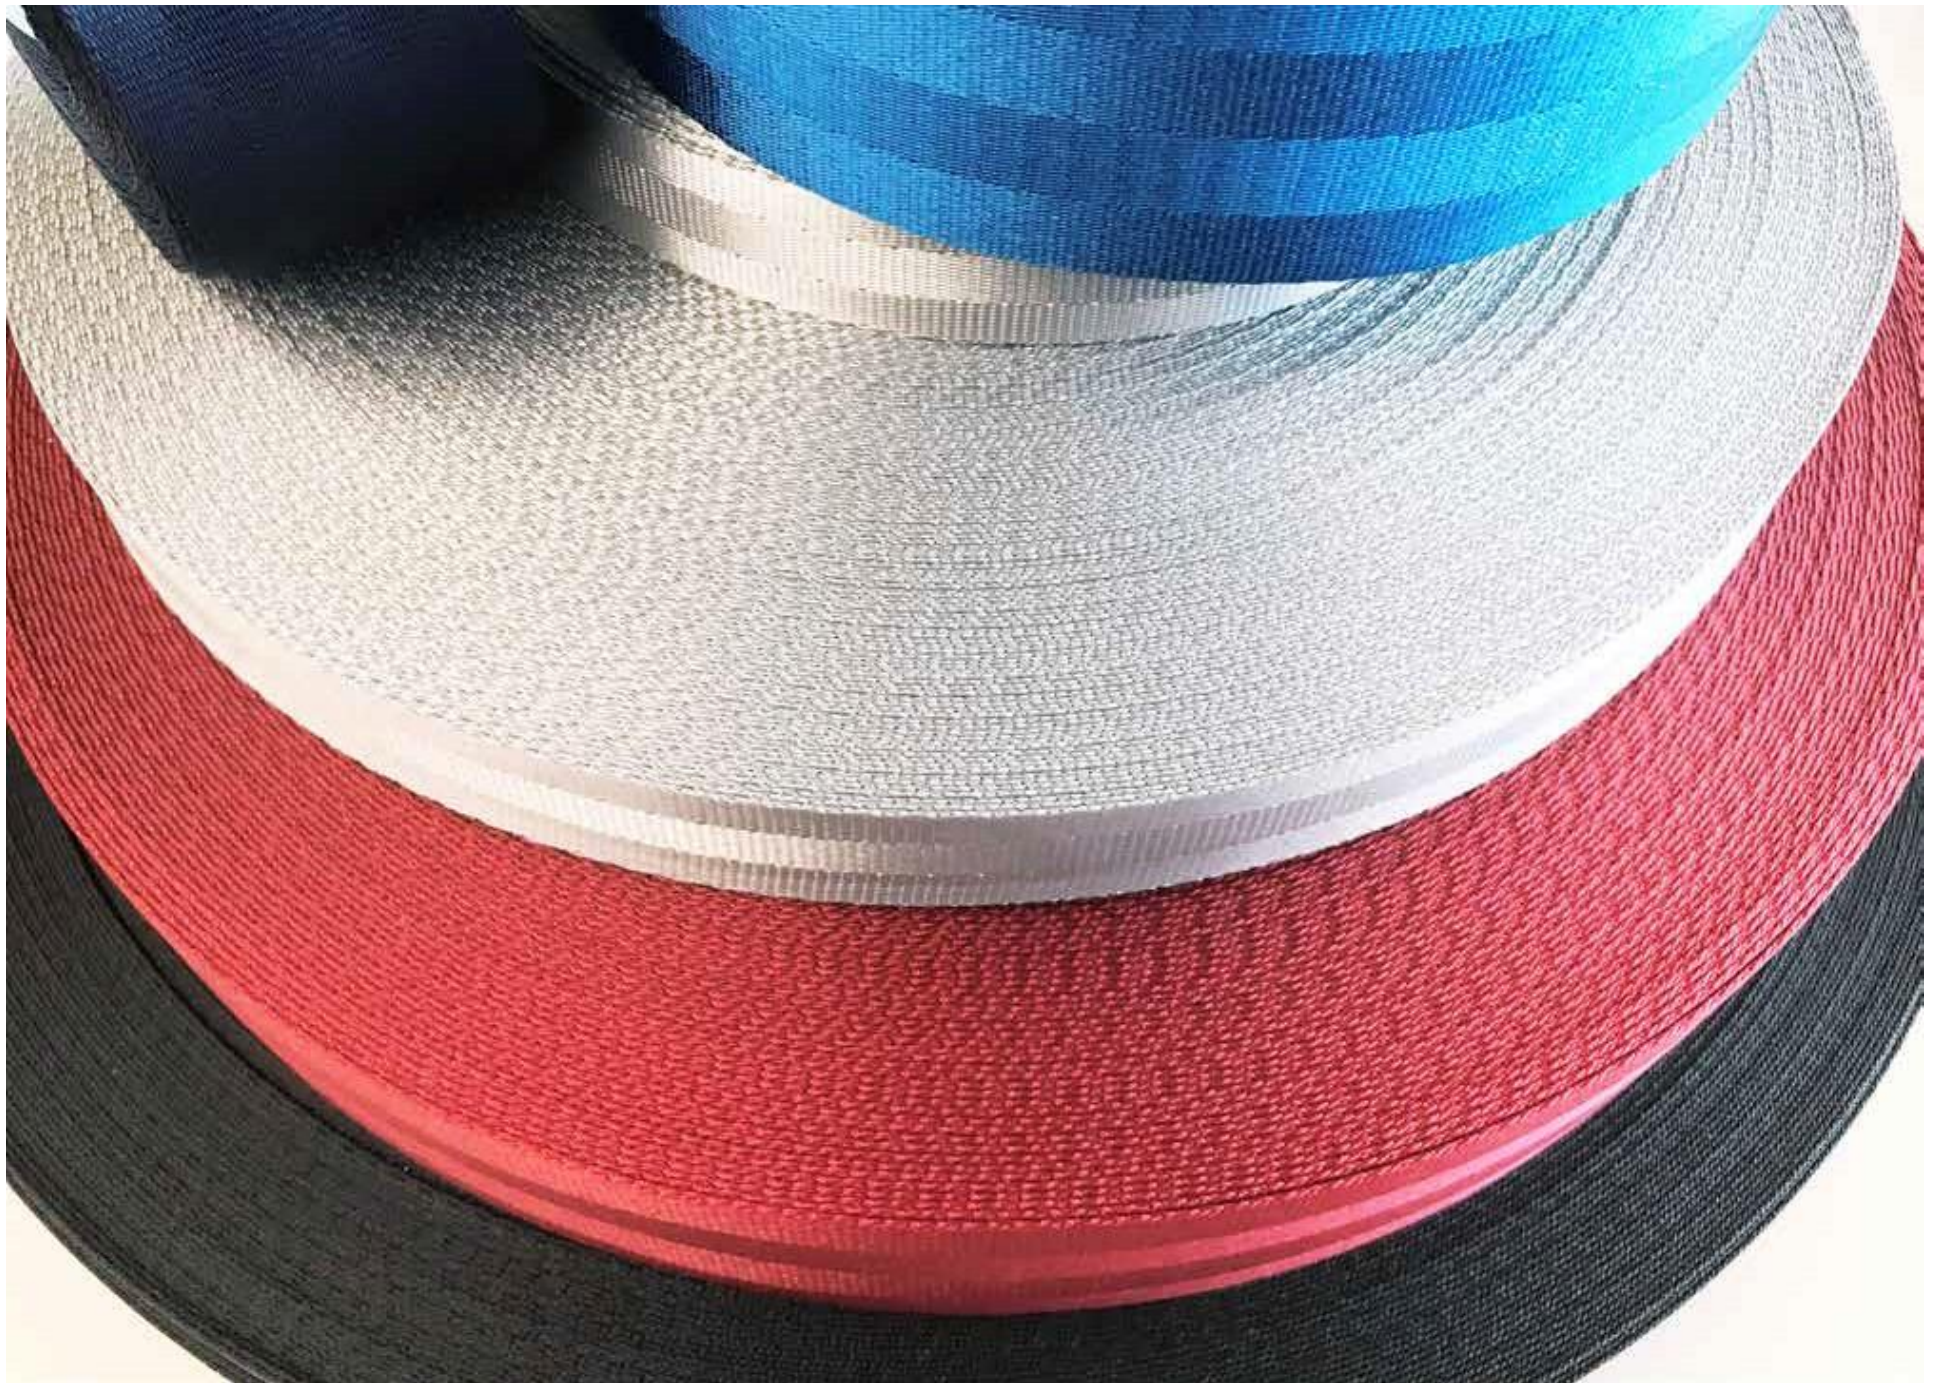

Embracing functionality and expressing it through perfect proportion and attention to detail.

FEATURES AND BENEFITS.

- Lighter in weight when compared to other seat belts on the market (73g)
- Meets TSO/ETSO requirements
- Sleek and ergonomic design
- Wide variety of webbing colours
- Can be retrofitted with existing seat attach points
- Custom plating, custom logos and custom buckle colour

WEBBING - COLOUR DIVERSITY.

Our customers can choose between a vast range of webbing colours or order special colour requirements.

The materials nylon and polyester have proven to be ideal for aircraft seat belts.

MADE IN GERMANY.

Our team provides technical expertise and supports the customer throughout the whole process.

Our customer will appreciate our competitive pricing, fast delivery times and customer service.

Since the 1960s our main strategy has been to offer quality aircraft products based on longstanding German craftsmanship and continuously work on exciting cabin interior innovations.

COMPANY.

ACM GmbH, based in Memmingen, Germany, is an EASA 21J DOA, 21G manufacturer as well as 145 maintenance organisation and thus the ideal partner of the aviation industry when it comes to design, manufacturing, maintenance and overhaul of aircraft interior furnishings.

TRADITION.

Highest quality, precision and innovation have been ACM's focus since the beginning in the 1960s. Together with our valued team we use our experience to reach the best product result with the extra attention to detail and provide the service that our customers ask for.
